Consumer Directed Health Plans (CDHPs)

Toys“R”Us offers you and your family a choice of CDHP options that provide comprehensive medical coverage and an available [Health Savings Account \(HSA\) \(/savings-retirement/health-savings-account-hsa/\)](/savings-retirement/health-savings-account-hsa/)—an account that lets you save money, tax-free, to pay for out-of-pocket health care expenses now or in the future.

Compare Your CDHP Medical Options

Most team members have CDHP medical options through Aetna. Team members in California also have access to a CDHP medical option through Kaiser. All of the CDHP medical options provide comprehensive medical coverage, including coverage for preventive health, prescription drugs and protection against catastrophic claims. Review this table for a high-level, side-by-side comparison of the plans.

Important Considerations

- In-network preventive care is covered at 100% for services such as routine physicals.
- You can choose in- and out-of-network coverage for all of the Aetna CDHP options. You must use in-network providers if you enroll in the Kaiser CDHP option.
- When covering family members, CDHPs require you to meet the family deductible before you share expenses with the plan, even if only one person needs medical care.
- Prescriptions are subject to the deductible (except for preventive medications). That means you pay the cost of your prescriptions up to your deductible. However, prescription copayments are held to certain maximum dollar limits to keep your out-of-pocket costs in check. After that, you pay coinsurance or copays for your medications.

Tips for Choosing Your Medical Option

Here are other questions to ask yourself to help you select the right option for you:

- **Do you want smaller paycheck deductions?** The Bronze option has smaller paycheck deductions, but higher deductibles. Your out-of-pocket costs could be high, depending on your health situation and how often you access care.
- **Would you rather have lower out-of-pocket costs?** The Gold and Silver options have higher paycheck deductions, but lower deductibles so you'll pay less out-of-pocket for medical care.
- **Do you want In- and Out-of-network coverage?** Consider the Aetna CDHP options. The Kaiser options do not cover out-of-network providers except in emergencies.
- **Do you have maintenance prescriptions?** Preventive care drugs are not subject to the deductible, but all other prescriptions are, including some maintenance prescriptions. Find out if your drugs are considered [preventive \(/media/1072/tru-cvs-maint-drug-15.pdf\)](/media/1072/tru-cvs-maint-drug-15.pdf).

Other things to think about:

- **A contribution from Toys"R"Us and your wellness actions can grow your HSA during the plan year!** [Learn more here \(/health-wellness-insurance/wellness/2016-2017-wellness-rebate-program/\)](/health-wellness-insurance/wellness/2016-2017-wellness-rebate-program/). Watch for more information about the 2017-2018 wellness rebate coming later this year.
- If you live in [Hawaii \(/health-wellness-insurance/medical-prescription-drugs/hawaii-team-members/\)](/health-wellness-insurance/medical-prescription-drugs/hawaii-team-members/) or [Puerto Rico \(/health-wellness-insurance/medical-prescription-drugs/triple-s-salud-puerto-rico/\)](/health-wellness-insurance/medical-prescription-drugs/triple-s-salud-puerto-rico/), see the plans specific to your location.

Understand Your Prescription Drug Coverage

If you participate in one of the Aetna CDHP options your prescription drug coverage is provided by CVS Caremark. All specialty prescription drugs must be obtained through Caremark. If you are currently filling prescriptions for specialty drugs through your medical plan, you'll be notified about how to transition to Caremark.

Caremark's "Site of Care" program helps manage infusion therapies, and will be made available. Eligible participants for this program will be contacted by Caremark.

If you are covered by the Kaiser CDHP option, your prescription drug coverage is provided through Kaiser.

How CDHPs Work with the Health Savings Account

The [Health Savings Account \(/savings-retirement/health-savings-account-hsa/\)](/savings-retirement/health-savings-account-hsa/) (HSA) is separate from the CDHP medical options sponsored by the Company. Like any savings or checking account, you own it. When you need care, you can use the money in your HSA to pay for medical expenses. Or, you can save it for the future.

How the Plans Work

Choosing Your Medical Plan

Choosing a medical option can be an overwhelming task. But, if you take it step-by-step, it can be easier than you think. Most team members have the choice of three Aetna "R"CDHP (Consumer-Directed Health Plan) options – Gold, Silver and Bronze. Note: Alaska and Guam residents only have the Gold and Silver options available. If you're in California, you also have the option of enrolling in a CDHP option offered by Kaiser. In addition, team members in Hawaii and Puerto Rico are only offered their traditional regional plans.

How Our CDHP Options Work

There are several components to the cost of health care coverage. The premium cost share between the Company and team members, team member out-of-pocket costs, called deductibles and coinsurance, and whether your provider is in-network.

Premium Cost

Your share of the premium cost is deducted from your paycheck on a pre-tax basis and depends on the medical option you elect. For example, the Aetna "R"CDHP Gold option offers a higher level of coverage when you receive care, however, your premium cost for that plan will be the highest. The Aetna "R"CDHP Bronze option offers the lowest level of coverage but has the lowest premium cost.

Annual Deductible

Your annual deductible is the dollar amount you have to pay for medical care and prescriptions before the plan starts paying a portion of the cost. Each medical plan has a different deductible amount.

Most plan participants never reach their deductible. So when you're choosing an option you should look at your premium cost, which you will pay no matter what, versus your deductible, which you will only pay if you need care.

Coinsurance

When your deductible is met, the Company will share in the cost of your care until you reach your annual out-of-pocket maximum. The percentage you pay depends on the medical plan option you elect.

Annual Out-of-Pocket Maximum

Your annual out-of-pocket maximum is the most you would pay in a given year. For example, let's say you have an unfortunate accident or need a costly surgery. The out-of-pocket maximum feature ensures in most circumstances, you'll pay no more than that amount out of your own pocket.

Network of Providers

Each medical plan option has a "network" – a specified group of doctors, specialists and facilities that have agreed to set fees for services in advance. The Aetna Gold, Silver and Bronze medical options let you see any doctor, whether in-network or out of the network. However, you will generally pay less when you go to in-network providers. With the Kaiser CDHP option, you must use in-network providers or you will be responsible for the full cost of services.

Remember – In-Network Preventive Care Costs You Nothing!

With all plan options, the full cost of your in-network preventive care, including annual wellness visits and age-appropriate vaccinations, are paid for by the Company. That means as long as you use an in-network provider, you don't need to consider the cost of preventive care when choosing a plan.

Aetna Institutes of Quality

The Aetna medical plans will now offer Institutes of Quality for certain surgeries, including gastric bypass, heart and knee replacement surgeries. Institutes of Quality are a network of hospitals and providers that specialize in these surgeries and have been chosen based on the quality of results and level of care. The primary measure of these facilities is how often patients return to the hospital after surgery.

Benefits When You Use Institutes of Quality

The amount the plan pays when you use Institutes of Quality is even higher than normal in-network providers at 95% coinsurance after deductible.

Finding Institutes of Quality

You can find Institutes of Quality by visiting www.aetna.com (<http://www.aetna.com>) and logging in to your secure member website. From there, click the link to "Find a Doctor, Dentist or Facility." Then, look for facilities listed as Institutes of Quality facilities and specialists who have privileges as these hospitals.

Save Money

Every health care decision you make matters. By making smart choices and spending wisely, we keep ourselves healthy and protect our business.

Managing Medical Costs

- **Aetna “R”CDHP medical plan options:** A [Personal Health Advocate \(/health-wellness-insurance/wellness/personal-health-advocate/\)](/health-wellness-insurance/wellness/personal-health-advocate/) will reach out to you based on health risk indicators from your medical and prescription drug claims. Your advocate may offer advice and point you toward additional resources like the 24/7 Nurse Line or Maternity Support Service Line. Your advocate also can connect you with an Aetna nurse to coordinate care with your health care providers/caregivers.
- You and your family have access to [Castlight \(/contacts-tools-resources/decision-support-tools/castlight/\)](/contacts-tools-resources/decision-support-tools/castlight/), an online decision support tool that provides personalized information on cost, quality and services to help you make the best possible medical and prescription decisions. Register at mycastlight.com/toysrus (<http://mycastlight.com/toysrus>).
- **Kaiser CDHP:** Contact a health advisor directly through Kaiser. [Learn more \(/health-wellness-insurance/wellness/personal-health-advocate/#Kaiser\)](/health-wellness-insurance/wellness/personal-health-advocate/#Kaiser).
- **Get the Wellness Rebate.** If you are enrolled in an Aetna “R”CDHP option or the Kaiser CA CDHP medical option, you can receive the maximum Wellness Rebate deposit into your Health Savings Account if you and your covered spouse/domestic partner (if applicable) complete certain wellness activities. **Details about the 2017-2018 program will be coming later this year.**
- **Take the annual Tobacco-Free Pledge.** If you are tobacco-free and you take the annual Tobacco-Free Pledge upon your initial enrollment in benefits or during the plan's Annual Enrollment period, you'll receive a Tobacco-Free Discount of \$520 saving you money each pay period. [Learn more \(/eligibility-enrolling/tobacco-free-discount/\)](/eligibility-enrolling/tobacco-free-discount/).
 - You can also qualify for the Tobacco-Free Discount if you are a tobacco-user and complete 5 calls with a Quit Coach in the Quit for Life Tobacco Cessation Program. [Learn more. \(/health-wellness-insurance/tobacco-cessation-program/\)](/health-wellness-insurance/tobacco-cessation-program/)
- **Certify your covered spouse's or domestic partner's employment and health coverage status.** There will be a \$25 per week (\$1,300 per year) [surcharge \(/eligibility-enrolling/2017-2018-enrollment-information/tobacco-user-working-spouse/\)](/eligibility-enrolling/2017-2018-enrollment-information/tobacco-user-working-spouse/) for covered spouses/DP who have medical coverage available through their employer, but choose medical coverage through Toys“R”Us.
- **Save with tax advantages.** Both the [Health Savings Account \(/savings-retirement/health-savings-account-hsa/\)](/savings-retirement/health-savings-account-hsa/) and the [Limited-Purpose Flexible Spending Account \(/health-wellness-insurance/limited-purpose-flexible-spending-account/\)](/health-wellness-insurance/limited-purpose-flexible-spending-account/) let you save on taxes when you set aside money for health care costs. Use the FSA for dental and vision expenses only. The HSA may be used for all eligible health care expenses. If you generally set aside money in your Health Care FSA in the past, and you anticipate unreimbursed medical expenses (i.e. deductibles) in the current plan year, redirect that money to the HSA through convenient pre-tax payroll deductions. With an HSA you don't lose your contributions at year-end like an FSA. Once deposited, it's yours to keep.

Help Control Drug Costs Together!

- **Know your plan.** Prescription drug benefits are part of your medical plan coverage. With the Consumer Directed Health Plans (CDHP) you must now meet the deductible before you hit the copayment or coinsurance levels. Be sure to review your plan provisions so that you can get the highest level of benefits, for example, by using mail service and sharing the [formulary \(/contacts-tools-resources/benefits-glossary/f/formulary-brand-name-drug/\)](/contacts-tools-resources/benefits-glossary/f/formulary-brand-name-drug/) with your doctor. Some prescriptions may require [mail service \(/contacts-tools-resources/benefits-glossary/r/required-mail-services/\)](/contacts-tools-resources/benefits-glossary/r/required-mail-services/), [step therapy \(/contacts-tools-resources/benefits-glossary/s/step-therapy/\)](/contacts-tools-resources/benefits-glossary/s/step-therapy/) or [prior authorization \(/contacts-tools-resources/benefits-glossary/p/prior-authorization/\)](/contacts-tools-resources/benefits-glossary/p/prior-authorization/). For more information, [contact the plan \(/contacts-tools-resources/contacts/\)](/contacts-tools-resources/contacts/).
- **Request generic.** Generic drugs are approved to be as safe and effective as their brand-name equivalents and on average cost 50 percent less. Whenever possible, request generic when your doctor is writing a prescription for you. This is especially important now that prescription expenses are part of the CDHP deductible.
- **Use the tools.** If you participate in an Aetna “R”CDHP medical option, your prescription drug coverage is provided by CVS Caremark. Visit [caremark.com \(https://www.caremark.com/wps/portal\)](https://www.caremark.com/wps/portal) (enrolled plan participants only—username and password required). Please click on “Not Registered” to create your account and use the tools that will help you estimate your out-of-pocket costs and find ways to save.

Save Money When You Shop at CVS Caremark

- Take advantage of the CVS Caremark Extra Care Health Card. If you are enrolled in an Aetna “R”CDHP option, you can receive special savings—a 20 percent discount—when you use your CVS Caremark Extra Care Health Card to purchase CVS/pharmacy Brand health-related HSA eligible items for the whole family. Only You Can Find the Right Fit

When it comes to choosing a medical plan, only you can decide which is the best fit for you and your family.

Ask yourself three key questions:

- Is your doctor in the network?
- Are you paying for more insurance than you're using?
- Are you making the most of your opportunities to save on health care expenses?
