Planning for Retirement

In addition to the retirement tools available to you at the Fidelity website, you have access to the [Retirement Estimator](#) (<http://www.socialsecurity.gov/retire2/estimator.htm>), courtesy of the Social Security Administration. This tool gives you the opportunity to get a personalized and instant estimate of future Social Security retirement benefits.

This award-winning tool can help you plan for retirement so you have what you need. To get an estimate, enter your first and last name, date and place of birth, Social Security number, and mother's maiden name. If the information matches Social Security's records, the Retirement Estimator combines this information with the information that Social Security has on record, including your yearly earnings, to provide a quick and reliable online benefit estimate.

The information on this site does not supersede plan documents. If any information on this site conflicts, the plan documents will control in all cases. For more information see full disclaimer. © 2018 Geoffrey, LLC. All Rights Reserved.
